

February NCMRC Program

Our program this month will be given by Joe Baldwin on "Moving My Layout". Joe will describe the process, timeline, and challenges he had to overcome and most of all what were the lessons learned in moving a large home layout 50 miles. And he will also share tips on movers, information on insurance and methods used. This should be a very interesting topic, and Joe always provides us with a unique program, so don't miss our February meeting.
